

DID YOU KNOW?  
ONCE SPAYED OR NEUTERED,  
CATS' ENERGY NEEDS  
DECREASE BY 20 TO 30%.

9 mm

actual  
bite size

Product Info

sterilized

**1<sup>st</sup> Choice – STERILIZED is designed to meet  
the special nutritional needs of spayed or neutered cats.**

1. **Provides essential animal proteins and amino acids** > fresh chicken and chicken meal
2. **Helps maintain a healthy weight** > optimal protein content (33%) and low fat content (9%)
3. **Helps convert fat into energy and reduces body fat** > L-carnitine
4. **Eases digestion** > grain free. Replaced by sweet potatoes and lentils which also help lower the glycemic index of the formula
5. **Helps eliminate hairballs** > natural fiber (pea fiber, dried pineapple)

Can be fed throughout the sterilized cat's adult life. Switching to this food quickly will help prevent weight gain. Remember that it is easier to maintain a healthy weight than to lose the extra pounds once the overweight has set in!

**PROTEIN+**

preserves muscle mass and keeps cats  
active to avoid weight gain

**HEALTHY WEIGHT**

helps maintain a healthy weight  
and convert fat into energy

**GRAIN FREE**

facilitates digestion and reduces  
the risk of grain intolerance
